

I approached Carrolls Carpet & Upholstery because they had come highly recommended from a service provider who I'd known for many years.

Carrolls helped me by thoroughly cleaning a large student house I manage at quite short notice.

The result was fantastic, Helen works tremendously hard and her attention to detail is terrific.

One thing I liked was how professional the service was, and how thorough the job was on completion.

I found the experience to be well worth the results achieved.

I would recommend Carrolls to anyone, and will use their services again in the future, not only for business for personally too.
